

Living the Art Life™

PowerTex Figurine Sculpture

Figurine in Powertex

6 hour workshop with break

Making a fabric sculpture allows complete freedom of expression in creating wonderful figurines that have their own individuality and presence. Cheryl will show you how to construct a wire armature that is 'mummified' and then 'dressed' and draped with fabric dipped into a fabric hardener. Cheryl will guide you step by step to transform your armature into a unique sculpture (a lady, a golfer, an Angel....)

Whether you are a beginner or advanced artist, you'll love this Workshop!

Supplies needed:

- Scissors
- Some plastic to transport your piece home
- Cotton t-shirt or ¼ yard cotton fabric ie muslin or any color
- Masking tape
- Aluminum foil
- Students can also bring embellishments such as lace, doilies, etc.
