

Living the Art Life™

Majestic *Bison* Sculpture

Bison Workshop

6 hour workshop – with lunch break

Making a stone art sculpture allows complete freedom of expression in creating wonderful figures that have their own individuality and presence. Cheryl will show you how to construct a wire armature that is 'mummified' and then modeled with air-dried clay by mixing Powertex as well as mixing with Stone Art and 3DFlex. Stone Art is a kind of Paper Mache specially developed for Powertex where 3DFlex is more a clay. Cheryl will guide you step by step to transform your armature into a majestic Bison. Whether you are a beginner or advanced artist, you'll love this Workshop!

Supplies needed:

- Some plastic and a large box to transport your piece home or be willing to leave overnight
- Masking tape ½" or ¾"
- Roll of Aluminum foil
- ½ Paint brush
- Container to rinse brushes
- Apron
